

## De Maison **Selections**, Inc. Winery Visit Request Form

All of the wineries with whom we work are family-owned, artisanal properties, and while they are often happy to host guests, their facilities are not designed to accommodate visitors, nor do they host regular tours. Due to this situation, visits to these wineries must be scheduled in advance so that they may properly prepare to receive guests. If you are interested in visiting one of our wineries please complete this form and email it to us at [info@demaisonselections.com](mailto:info@demaisonselections.com).

### **A Few Things to Consider:**

- 1) Scheduling visits takes time, please allow us at least one month to process your request and schedule an appointment.
- 2) We cannot guarantee that a winery will be able to host you on your requested date.
- 3) Our wineries are unable to host visitors during and around harvest season so it is unlikely that we'll be able to schedule visits during the months of August through early November (depending on winery).
- 4) Some of our wineries do not have an English speaker available. Please note that you may encounter a language barrier if no one in your party speaks Spanish.
